Dedication

MR. DONALD JOHNSON

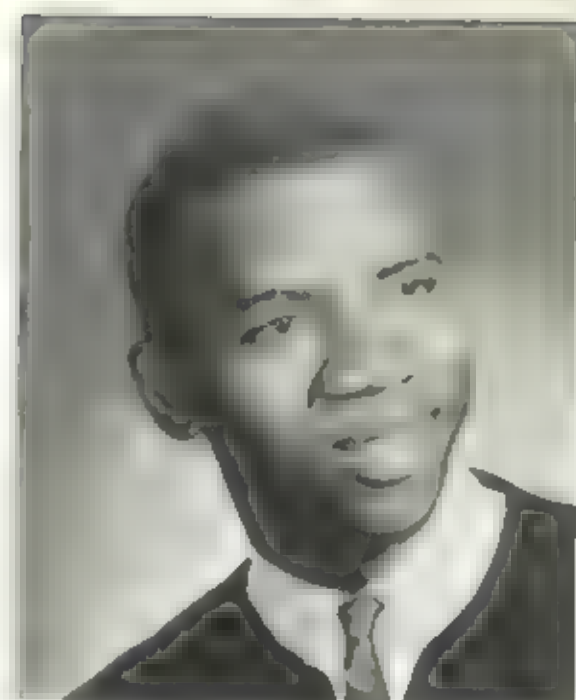

As the Class of 1967 leaves Youngsville High School, we leave behind an outstanding faculty member. Mr. Donald Johnson, a most devoted teacher for twelve years, has taught Industrial Arts and Mechanical Drawing to over two thousand students, many of whom have gone from his machines and drafting desks to successful positions in industry.

In appreciation for all his aid and assistance through the years, we dedicate the 1967 Aquila to Mr. Donald Johnson.

ALISON, COMFORT

By the time you read this, one of the best and certainly one of the most rewarding years of my life will almost be over. It's hard to believe that eleven months have gone so quickly but, in just a few short weeks, I'll be 12,000 miles from Y.H.S. and all the good friends I've made here.

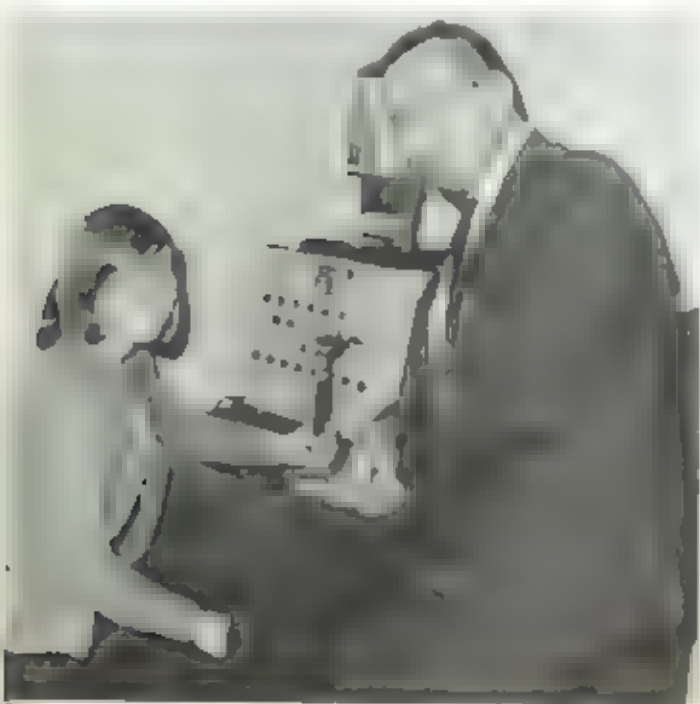

Even though I speak English as a native language, a surprise to some people, many American slang expressions have different interpretations in New Zealand - and vice versa - and so, at times, there have been interesting, and also embarrassing, moments!

Perhaps the strangest thing to which I had to adjust was driving on the "wrong side of the road." In New Zealand, because we follow many British customs, we drive on the left hand side of the road, and so you can imagine how scared I was when, on first arriving in the USA, I traveled at 50 m.p.h. on one of your frightening, tight and express ways.

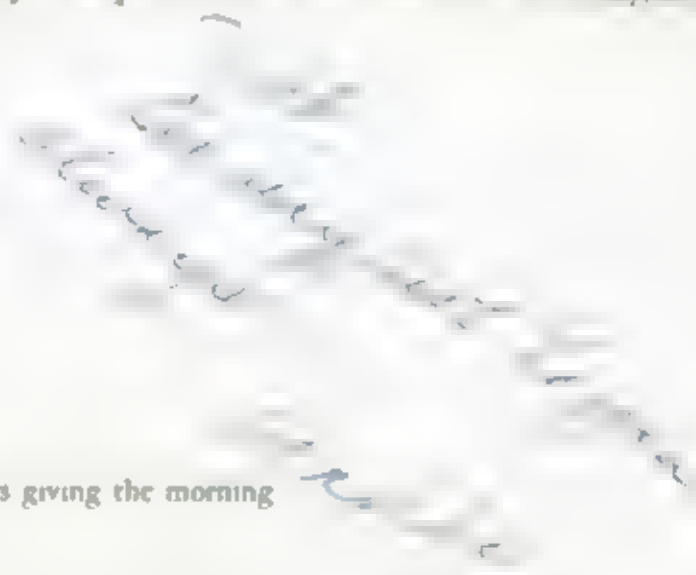

There have been a great many other things that I've found to be slightly different from my other home in New Zealand - no school uniform, sports only for boys, cheerleading, Drive In theatres, pizzas and hamburgs, snow in winter (we only get rain), different approaches to subjects like history, economics and English, and even an undefeated football team (congratulations boys!).

One of my most unusual and unforgettable experiences was my first White Christmas, seasons are reversed, 'down under' and so we have our *summer* holidays during the Christmas season. However, my biggest 'task' has been to convince Americans that New Zealand is *not* part of Australia - more than 1,000 miles of ocean separate us.

Yet, I know that I'll never forget the wonderful time I've had in this country, nor how friendly this school and community has been to me, and even though New Zealand is so far away, I hope to come back and visit here again some day. Thank you, everyone, for all that you have done for me.

Alison and Mr. Matthews giving the morning announcements

ADMINISTRATION

Dr.
Barratt

TO THE MEMBERS OF THE 1967 CLASS YOUNGSVILLE HIGH SCHOOL

With the passage of years you will some day recall with nostalgia that you were members of the first class graduated from one of the high schools of the Warren County District. To you individually as a member of this class, on behalf of the School Board and Administration of the Warren County District, I extend congratulations on the attainment of your high school diploma. We also, offer wishes for success in future endeavors. It is our hope that you will find the education offered during your years of school attendance to be of great benefit as you meet and conquer the challenges of life.

As you enter the adult world, I trust that you will repay the public investment in your education by helping the Warren County School District as it strives to improve the educational programs offered the students who follow you through our schools.

T. K. Barratt

Mr. Felix Matthews,
Principal

I, on behalf of the Warren County School Board and the faculty of Youngsville High School, would like to congratulate the graduates of the Class of 1967 who are the first class to graduate from Youngsville High School under the newly organized Warren County School District. Reorganization was responsible for a number of changes which will eventually lead to an educational climate for a more complete education whether it may be terminal or preparatory. Some changes were difficult to accept but you, the members of Class of 1967, provided the attitude and leadership necessary for a smooth transition. For this I wish to extend to you a sincere thank you.

As you prepare to take your place in a modern and dynamic society, I am hopeful that you have learned your lessons well in regard to responsibility, attitude, and citizenship.

Those of you who plan to further your education will find that if you have applied yourself diligently in high school, that with identical effort you will be successful in furthering your education. Those of you who plan to terminate your formal education upon graduation and enter the labor market will probably succeed in terms of your knowledge and the effort you make. Regardless of your intent, the faculty and I are hopeful that all of you, as you take your place in society, will realize a happy and productive life.
